Tutoring Time (study hall for gr. 1-6) (6 spaces); Young Meteorologists for preschool-kindergarten (5 spaces)

### **Full Classes**

We keep our classes small, usually 5-10 students depending on subject matter, so some classes may fill up. Don't let that discourage you! You can sign up all day or just for one, two or three classes while you wait on spaces in a full class. Also, siblings of high school students and children of team teachers have priority, so if you have a high schooler or if you offer to team teach a class, your child is eligible for any possible reserved spaces. Email us to find out. Plus, so many things happen over summer and winter breaks that openings will likely crop up when you least expect them. We can place you on the waiting list and notify you if an opening becomes available, so email us soon to get at the top of the list!

### **Fees**

Academy Days Co-op aims to be affordable, so no one at co-op gets paid. Class fees pay for supplies only. Individual class fees usually range from \$1 to \$18, but average about \$8, and are for the entire semester, not per week nor per month. The \$75 family registration fee covers insurance, facility rental and general co-op supplies; however, we offer several discounts that can be combined to reduce the total. In fact, most families pay only about \$30 or less! All fees are due and payable in cash at Registration & Orientation two weeks before the start of each semester. [Click here](#) for more information on fees and discounts.

### **Team Teachers**

All classes have what we call "team teachers" (two or three parents who teach) to ensure a low teacher-student ratio. Our teachers are fellow homeschooling parents with a degree, special knowledge, work experience or passion for the subject that they want to share with students. You do NOT have to teach a class to enroll your child, but team teaching just one class holds your child's spots all day and earns an extra discount on the registration fee! Also, you do not have to team teach your own child's class.

### **Registration**

To sign up, email [carren\(at\)outlookacademy\(dot\)com](mailto:carren(at)outlookacademy(dot)com) with your name, city, phone, children's names, ages, grades, and what classes they would like. If you miss the deadline, we will put you on the early notification list for the following semester.
